## Lawrence County Chamber of Commerce

### Recruiting College Graduates

The Chamber is compiling a list of jobs available in Lawrence County for college graduates.

Currently, we are aware of openings in the following areas which require college degrees: Civil Engineering, Electrical Engineering, Accounting, Business Management, Interior Design, Marketing, Insurance Production, Nursing, Occupational Therapy, Physical therapy, Customer Service, Criminal Justice and Education.

"I think it's vitally important for us to recruit some of our college graduates back home to work after they get their various college degrees," said Chad Chancellor, Chamber CEO.

"We must get the word to those who want to work in Lawrence County that there are opportunities out there. If only one person gets a job due to these efforts, it will have been worthwhile. Our philosophy is every job is worth fighting for, but we need your help with the fight."

If you or someone you are aware of has a degree in one of these fields, please contact the Chamber. If you are a business owner or manager looking to hire an individual with a college degree, call us so we can add your position to our list.
