## Lawrence County Chamber of Commerce

### Lawrence County Served by High Quality Healthcare

With February being American Heart Month, now is the time to educate ourselves about heart disease and take positive steps to help prevent it.

**Crockett Hospital** is proud to offer Cardiac Calcium Scoring exams. These exams are outpatient test that require no medication or IV access. The screening looks at the amount of calcium in the arteries around the heart and can quickly and painlessly evaluate the calcified or "hard" plaque that affects a patient's coronary arteries. Calcium Scoring CT is an innovative and important tool in the assessment of risk factors for heart and coronary artery disease.

Crockett Hospital's Radiology Department offers Clinical Diagnostic Radiology, Digital Mammography, Ultrasound, Nuclear Medicine, MRI, Bone Density Studies and X-ray. For more information contact Trinity Hagan at 931-766-3251.
