Dyna-Pak Corporation announced today that sales for the first quarter of 2009 was the best in their 30+ years of manufacturing in Lawrenceburg. The result was especially extraordinary in this period of severe recession. Dyna-Pak attributes this success to innovation of new products such as biodegradable films and expanded sales territories in the U.S. and Canada. Dyna-Pak expresses optimism about additional sales of a specific prod-

uct to a current long-time customer who is building another large plant in the TN area. This customer produces polycrystalline silicon for both solar and semiconductor worldwide markets. "Through the efforts of our many experienced employees, this increase in sales has allowed Dyna-Pak to create more jobs and to contribute to our local economy," said Mike Dicapo, General Manager. Dyna-Pak currently employees 85 people.

Spotlight on New Members
